

Cozy dozee

SAFETY WARNINGS & TIPS:

HOW TO USE INSTRUCTIONS:

1. **Prior to the drive** (only needs to be done once):

Slide the back half of Cozy Dozee around the back of the child's car restraint seat and manoeuvre it down to catch under the top edge between the child's car restraint and the car seat.

Then leave the front half just resting on top of the seat, in the "ready to use" position.

2. **AFTER the child is asleep:**

Make sure the child's head is in an upright posture. While supporting the clips/strap, to prevent opening, gently stretch and slide the front of the Cozy Dozee down and level with the child's forehead (which it may not actually touch). **The Cozy Dozee should sit around the whole seat**, not just the inner head rest. Instructional video available on our "How to use page".

1. Adults should only position the Cozy Dozee when the **car is safely parked**, in a stationary position and with the parking brake on. We suggest you could either reach through the car to the child or alternatively open a window and get out of the car to reach through, or open the door.
2. The Cozy Dozee is designed for use only:
 - on Type B forward facing car seats or convertible boosters, that are compliant with AS 1754 (2013), and have a 6 point harness.
 - for assisting children approximately 1 to 6 years. This product is **NOT** designed for use or suitable for booster seats that use a lap-sash seat belt.
3. The Cozy Dozee is only designed to be used under adult supervision. **Never leave a child unattended in a vehicle.**
4. Not to be used as a toy. Only position the Cozy Dozee level with the child's forehead **AFTER** the child is asleep.
5. The Cozy Dozee has been designed to be used only when the child car seat straps and harness have been fitted and adjusted in accordance with the child car seat manufacturer's instructions. **(See helpful tips on the back page)**. Cozy Dozee will not be responsible for any use of this product that is inconsistent with these instructions or if there is incorrect use of the child car restraint.
6. Elastic degrades over time and with use. We therefore recommend regular inspections and replacing your Cozy Dozee if there is any sign of over stretching of the elastic.
7. The Cozy Dozee is not designed or intended to provide any protection for a child in the case of the accident. It is meant to improve sleep quality and comfort by supporting the child's head. It is not a safety device.
8. Always follow these instructions and those provided by the child car restraint seat manufacturer, as incorrect use of a car restraint accessory may cause serious injury.
9. In the case of a high speed accident, the Cozy Dozee will release, via the clips and will no longer be positioned in front of the child. The child can also be removed by simply lifting the front up and out of the way and in most cases you can pull the child out from the seat without moving the product.

TIPS FOR GREAT FITTING STRAPS:

Here are some tips to help you get the best fit of your child's seat straps:

1) Ensure they are nice and firm with only a finger space under the strap, by doing a 'pinch test' (see the photo below).

PINCH TEST - EVERY DAY, EVERY DRIVE!

If you can pinch a fold in the strap, at the collarbone, the harness is not tight enough.

2) Ensure the straps are coming out at the slots closest to your child's shoulder and no more than 2.5cm lower than their shoulder - *for forward facing restraints.*

3) Finally, here is a video link to show you how to use the 'Triangle method' to easily straighten out those annoying twisted straps. Go to: <http://tinyurl.com/z8z4q2y>

These 3 points will not only help reduce your child's head slumping, they are helping you on the way to using your car restraint straps correctly. Remember to read your car seat manufacturers' manual and for any queries contact them directly.

TROUBLESHOOTING:

Q: Why is the clip popping/breaking open?

A: If the material on the strap has gathered all at one end, the clip may pop open. Please move the fabric towards the clips, allowing material for the elastic to 'stretch into', when you are stretching and positioning the Cozy Dozee.

Alternatively, you can hold the clips so they won't open while stretching the Cozy Dozee strap so the material is evenly spread.

NB: Please see step 2 of how to position.

If the clip is still breaking open, please get in touch asap so we can check that you have purchased the correct size for your car seat and/or the clip isn't faulty.

CARE INSTRUCTIONS:

100% cotton fabric outer / Polyester filling

- Cold hand wash only / Line dry flat
- Do not tumble dry / Do not iron
- Do not dry clean

TESTING:

The Cozy Dozee has been tested under Australian standards for the following and has passed all testing requirements:

- Crash testing in accordance with AS/NZS 8005: 2013
- Air permeability (breathability) testing using method AS 2001.2.34
- Flammability testing using method AS 2755.2

CONTACT:

Cozy Dozee is patented, trademarked and a registered business of Cozy Dozee Pty Ltd.

For any questions you may have about the Cozy Dozee, please ensure you have watched the video on our website and read our 'Frequently asked Questions' page.

For further information, for any other queries or problems, including fit or function, please contact us at contact@cozydozee.com or via the website at www.cozydozee.com. *We are only too happy to help!*

Thank you
